PROJECT

Instruction	6 Periods per week
Duration of University Examination	Viva - Voce
University Examination	Grade*
Sessional	50 Marks

‘Solving the Real Life Problem’ should be the focus of U.G. Project. Faculty members should prepare the Project brief well in advance, which should be made available to the students at the Departmental library. The Project may be classified as hardware, software, modeling and simulation. It should involve one or many elements of techniques such as analysis, design, synthesis etc.

The Department will appoint a Project co-coordinator who will coordinate the following:

Grouping of students (a maximum of three in a group) Allotment of Projects and Project guides

Project monitoring at regular intervals

All Project allotments are to be completed by 4th week of IV year 1st Semester so that students get sufficient time for completion of the Project.

All Projects will be monitored at least twice in a semester through students presentation. Sessional marks should be based on the grades/ marks, awarded by a monitoring committee of faculty members and marks given by the supervisor.

Efforts should be made that some of the Projects are carried out in Industries with the help of Industry co-coordinators. Problems can also be invited from the Industries to be worked out through U.G. Project.

Common norms will be established for final documentation of the Project report by the respective Department.

*Excellent / Very Good / Good / Satisfactory / Unsatisfactory.

Note: Three periods of contact load will be assigned to each Project guide.
